

Designer / Developer / Photographer

O’Ryan McEntire

603.723.8688 oryan@oryanstudios.com www.oryanstudios.com

I’m a firm believer in pursuing life’s passions and mine is definitely a blend of art and technology. My main focus is in interactive media design. I love creating art that is able to respond and give back to the user. My favorite part of working in this field is that there is always something new to discover.

My ultimate objective is to work in a creative environment where I can grow and work with a team of supportive fun-loving and passionate people.
